# Grade 1
## Week of May 11 - May 15

### Message to Families
This website is designed to support our students and parents with lessons to advance student learning during the extended school closure. This page will be updated weekly, in addition, you will also have access to archived pages. A reasonable expectation for daily reading and math work is about 15 -20 minutes per day for each subject. It is not our intent to overwhelm students and parents. If you have questions, please contact your child’s teacher for assistance.

### English-Language Arts: Week of May 11th Resources and Activities
